

January 18, 2013

To whom it may concern,

Caleb Lemotte was employed by éPICS as an animator from August 2012 to January 2013 on a feature film project “Savva”, and I would highly recommend him to any potential employer.

During his time on the project, Caleb proved himself to be an integral part of the team. He was always trusted with difficult shots, and consistently delivered high quality work under tough time constraints. Caleb's experience as an animator was characterized by his ability to offer creative solutions to technical problems as they arose. His solid knowledge of Maya and animation workflow meant he could easily communicate and identify issues within different departments.

Caleb is among the most talented, enthusiastic and easygoing people I've worked with, and was held in high regard by all those that worked with him.

He leaves behind him some big shoes to fill, and I wish him well with his future endeavours.

Yours sincerely,

Donald Baldie
Production Manager
