

4th May 2012

Nathalia Cruz – Employment Reference

To whom it may concern,

Nathalia has been an integral part of the animation team here at Oktobor Animation from January 2011 to early May 2012.

I worked as Nathalia's Animation Director across a number of television shows created for Nickelodeon including The Penguins of Madagascar, the yet to be release Robot & Monster, and most recently Kung Fu Panda: Legends of Awesomness.

Nathalia was a wonderful asset to the team. Over the year or so I have known her, the quality of her animation has grown exponentially. She quickly developed to a point where she would often be my go-to animator for shots which I would deem too difficult for the average animator. She would reliably submit these demanding shots with such speed and confidence, that I would wonder if they were actually as challenging as I had originally thought (of course, in reality the shot would have fallen apart if given to a weaker animator).

It is sad to see her go. It will be difficult to find a replacement that is comparable in both quality and speed.

Yours faithfully,

Peter Monga
Animation Director
